**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-7, 43-47, and 58 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

**Regarding claims 1 and 44.** The prior art of record fails to teach a method and system for providing zone based personalized information comprising, a plurality of zone management systems each installed in one of a plurality of zones within a cell, acquiring MIN information of a mobile terminal entering a specific zone, the acquiring being done by the zone management system installed in the specific zone, requesting location registration of the terminal to a HLR using the MIN and zone identification information received by the zone management system, retrieving, by a zone information management server, transmission information to be transferred to the terminal according to the zone identification information and the MIN information, transferring the transmission information and the MIN information via an SMS server to a SMS message center, generating an SMS message and getting location information of the terminal, transferring the SMS message and the MIN to the base station of the cell where the terminal is located, transmitting, by the base station, the SMS and MIN information in a data burst message format to the terminal, wherein the installing comprises connecting the zone management systems to the zone information management server via a computer network, without directly connecting the zone management systems to the base station, and the MIN information is transmitted from the zone information

management server to the HLR via, at least partially, the computer network, without being transmitted by the base station, as substantially described in independent claims 1 and 44. These limitations, in combination with the remaining limitations of claims 1 and 44, are not taught nor suggested by the prior art of record. Claims 2-7, 43, and 45-47 depend from claims 1 and 44 and are therefore allowed for the same reasons.

**Regarding claim 58.** The prior art of record fails to teach a method and system for providing zone based personalized information comprising, a plurality of zone management systems each installed in one of a plurality of zones within a cell, acquiring MIN information of a mobile terminal entering a specific zone, the acquiring being done by the zone management system installed in the specific zone, requesting location registration of the terminal to a HLR using the MIN and zone identification information received by the zone management system, retrieving, by a zone information management server, transmission information to be transferred to the terminal according to the zone identification information and the MIN information, transferring the transmission information and the MIN information via an SMS server to a SMS message center, generating an SMS message and getting location information of the terminal, transferring the SMS message and the MIN to the base station of the cell where the terminal is located, transmitting, by the base station, the SMS and MIN information in a data burst message format to the terminal, acquiring MAC information of the mobile terminal entering the zone, receiving the MAC information from the zone management system and acquiring MIN information matched to the MAC information, requesting the location registration of the mobile to the HLR, searching for information to be transferred

according to the MIN information and the zone identification information, transferring the transmission information and the MIN information via the SMS server to the SMC, as substantially described in independent claim 58. These limitations, in combination with the remaining limitations of claim 58, are not taught nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
